

Project Synopsis Report

Project Title: SkillSphere - Smart Personal Portfolio with Admin Control

1. INTRODUCTION

SkillSphere is a smart, dynamic, and user-friendly personal portfolio website that allows users to manage their own content through an integrated Admin Control Panel. It removes the need for manual coding whenever the portfolio owner wants to add new projects, blogs, or achievements.

2. OBJECTIVE

- Develop a dynamic and responsive portfolio website.
- Build a secure admin panel with JWT authentication.
- Enable CRUD operations (Add, Edit, Delete, View).
- Implement file upload functionality for images.
- Ensure mobile-friendly responsive design.

3. EXISTING SYSTEM

Existing static portfolios require manual coding for every update, lack admin control, and have no dynamic database connectivity.

4. PROPOSED SYSTEM

The proposed system provides dynamic portfolio management with secure authentication, admin and user separation, and image upload functionality. Content updates can be made instantly without redeployment.

5. SYSTEM REQUIREMENTS

Hardware: i3 Processor, 4GB RAM minimum.

Software: React.js, Node.js, Express.js, MongoDB, JWT.

6. MODULES

- Authentication Module (User/Admin login)
- Project Module (CRUD with image upload)
- Blog Module (CRUD with image upload)
- Contact Module (store messages)

- Admin Panel (Full control)
- Responsive UI

7. TECHNOLOGY STACK

Frontend: React.js, HTML, CSS, JavaScript

Backend: Node.js, Express.js

Database: MongoDB

Authentication: JWT

8. ADVANTAGES

- Dynamic data updates without redeployment.
- Secure login for admin and users.
- Responsive, mobile-friendly interface.
- Easy management for non-technical users.

9. FUTURE ENHANCEMENTS

- Cloud image storage (Cloudinary/AWS S3).
- Analytics Dashboard.
- Dark/Light mode.
- Email notifications for contact form.

10. CONCLUSION

SkillsSphere is a modern and scalable MERN stack project that simplifies portfolio management. It demonstrates full-stack web development, security, and responsive design.
